

Ventura PowerLED

The Ventura PowerLED recessed spot is Imtra's latest (and most powerful) PowerLED spot. Ventura's lumen output exceeds most 20W halogen spots of similar size. Like all Imtra PowerLED spots & fixtures, the Ventura is 100% dimmable when used with Imtra's power-saving PWM momentary digital dimmer. Like our other IML PowerLED spots, Ventura's smooth aperture appearance without "hot spots" sets it apart from other LED spots on the market. Three stylish trim bezels offered with a choice of warm or warm/red bi-color output. Ventura conveniently & firmly installs with self adjusting trap springs.

Ventura PowerLED

Ventura HS PowerLED

Ventura RS PowerLED

FEATURES

- Ultra flat stainless steel bezel in round or square designs
- Convenient self-adjusting mounting springs
- Integrated drive electronics
- PWM dimming interface

BENEFITS

- Substantial power savings
- High lumen output (exceeding 20W halogen)
- Cooler cabin temperatures
- Maintenance-free; no more bulb changes
