PRECISION ON-BOARD CHARGERS

BATTERY TYPE SELECTION (BY BANK)

Select your battery type to guarantee a safe, protected charge. Then, use the LED lights to monitor connection and power status, state of charge.

LOW-LINE VOLTAGE COMPENSATION

Long extension cords, don't put out the 120 volts they're supposed to. Precision chargers compensate for a fast, consistent charge no matter what.

AUTOMATIC TEMPERATURE COMPENSATION

Charging at high and low temperatures can damage your battery. Our chargers adjust to temperature fluctuations to ensure an accurate charge.

**PRECISION
CHARGERS**

DIGITAL ON-BOARD CHARGERS

DIGITAL CONTROL

A microprocessor-based design enables our chargers to continually monitor the temperature and state of charge. For a faster, more regulated, charge.

AUTOMATIC TEMPERATURE COMPENSATION

Charging at high and low temperatures can damage your battery. Our chargers adjust to temperature fluctuations to ensure an accurate charge.

STATUS CODE DISPLAY

Intuitive readings on our Digital on-board chargers inform you of charge stage, maintenance mode status, error notifications and full charge.

PORTABLE & ALTERNATOR CHARGERS

3
YEAR
WARRANTY

EVER GIVE YOUR BATTERIES A DAY OFF? DIDN'T THINK SO.

DIGITAL CONTROL

PORTABLE DIGITAL CHARGERS

DIGITAL CONTROL

A microprocessor-based design enables our chargers to continually monitor the temperature and state of charge. For a faster, more regulated, charge.

AUTOMATIC TEMPERATURE COMPENSATION

Charging at high and low temperatures can damage your battery. Our chargers adjust to temperature fluctuations to ensure an accurate charge.

LED DISPLAY

Know exactly what your charger is doing. LED display indicates power ON, charging, full charge and check connection.

ALTERNATOR ON-BOARD CHARGERS

CHARGE-ON-THE-FLY

Charge-on-the-fly technology keeps you on the water longer and decreases on-shore charge times.

LED DISPLAY

Know exactly what your charger is doing. LED display indicates power ON, charging and check connection.

EXTENDS BATTERY LIFE

Minn Kota Alternators extends the life of your battery by protecting your battery from frequent deep discharges.
